

Small Drinking Water System Warning Sign Documentation Log

Post the "Do Not Drink This Water" signs at every tap in the Small Drinking Water System (SDWS) that might permit human consumption of the water.

Check monthly or as determined by Public Health Inspector (PHI) that these warning signs are still posted and record confirmation on the form below. This document and other records must be kept onsite for at least five years.

Premise Name:	
Signs are posted at the following locations:
